CORE COVID-19 TEAM AND SITE SAFETY MONITORS

Brooklyn Law School has assembled a small core of administrators to implement and monitor the reopening plan and guide the Law School’s reopening efforts. They may be contacted at any time regarding COVID-19 related matters.

Mark Hampton, Executive Vice President for Administration & Finance; Chief Business Officer
mark.hampton@brooklaw.edu

Office: (718) 780-0377
INTRODUCTION

The unprecedented advent of the “Novel Coronavirus” (“COVID-19”) has presented the Brooklyn Law School community with many challenges. Gradual emergence from the aftermath of the COVID-19 crisis requires careful preparation, which is set forth in this New York State mandated reopening plan.

The purpose of this plan is to provide a framework for returning to operations after the New York State-mandated COVID-19 quarantine. The goal of the framework is to: (1) contain the spread of COVID-19; (2) protect the Brooklyn Law School community and the public; (3) minimize the effect of safety measures and other precautions on our educational mission; and (4) ensure compliance with applicable federal, state, and local laws. This plan applies to administrators, staff, and faculty (who will be collectively referred to in this plan as “employees”), students, visitors, and third-party vendors who are on the Law School’s premises at 250 Joralemon Street, 205 State Street, and 148-150 Clinton Street. The foundation of this plan focuses on the sources of potential exposure including the vents and air circulation systems, lobbies, hallways, classrooms, study areas, cafeteria, event spaces, mail area, meeting rooms, offices, restrooms, and eating areas.

This reopening plan is based on the best available information at the time of publication. It was first issued one year ago on June 22, 2020. Since then, a COVID-19 vaccine has been developed and mass distributed to the public to reduce the chance of infection, and for those who are infected, to reduce the severity of the virus’s effects. In addition, other efforts to contain the spread of COVID-19 have eliminated the need for government mandated lockdowns and isolations. However, the COVID-19 Delta Variant has emerged, causing infection rates to rise once again. Furthermore, the CDC has stated that vaccinated individuals can carry the COVID virus without any symptoms, thereby putting unvaccinated individuals at risk.

Therefore, based on the latest federal, state, and local information and guidelines, and the mandated vaccination of faculty, students, and staff in the Law School community, classroom instruction will be in-person, the workforce will be hybrid (remote and in-person workers), and safety protocols for those attending class or working at the Law School in person will be in place. We are hopeful, with the vaccination efforts by the New York State and New York City governments, that the level of immunity within the community will be sufficient to contain the spread of the COVID-19 virus (also known as “herd immunity”) and allow us to return to full regular activities by Spring 2022.

---

1 See New York State Executive Order 202.6, dated March 20, 2020.
2 See the “Resources” listed in Section VIII at the end of the plan for more information about COVID-19.
THE REOPENING PLAN FOR FALL 2021

I. ENGINEERING CONTROLS AND SAFETY MEASURES

Responsible Person and Main Contact: Steven Oleksiw, Director of Facilities

Engineering controls are used to isolate employees and students from hazards in the workplace and academic environment without relying on human behavior. The following engineering controls and safety measures have been implemented by the Law School, where possible:

- Increasing air circulation and installing high-efficiency air filters where needed.
- Ensuring exhaust fans in restrooms are fully functional.
- Ensuring the availability of hot water in all restrooms and kitchen sinks.
- Performing ongoing, rigorous sanitization of restrooms, common areas, and anywhere else with significant pedestrian traffic, in accordance with CDC and Department of Health guidelines, which are referenced at the end of this plan. Logs must be maintained that include date, time, and scope of cleaning and disinfecting.
- Promoting physical distance as and when needed in response to high rates of transmission by closing alternate stalls in restrooms, removing selected tables and chairs, and creating one-way staircases where possible.
- Installing motion sensors where possible in doorways, restrooms, classrooms, and offices.
- Installing touch-free amenities such as water fountains, hand dryers, and trash receptacles.
- Installing plexiglass or other dividers to create physical barriers where needed and appropriate, if such barriers do not impede airflow, ventilation, heating, or cooling.
- Ensuring that the proper receptacles are placed throughout the premises and near hand-sanitizer stations for the disposal of face coverings, wipes, and other soiled items.

II. SAFETY PRACTICES

Responsible Persons and Main Contacts: Mark Hampton, Executive VP & Chief Business Officer; Steven Oleksiw, Director of Facilities

A. MASKING

Until further notice, both vaccinated and unvaccinated individuals are required to wear masks in indoor common areas of any property owned or operated by the Law School,
including 250 Joralemon Street, Feil Hall (205 State Street), and 148-150 Clinton Street. Common areas include lobbies, hallways, meeting rooms, classrooms, eating spaces, and elevators. Masks do not have to be worn when alone in one’s office with the door closed. Employees in cubicles and students studying in carrels or at tables, even when separated by six feet or more, should continue to wear face coverings because of their general exposure to others.

Individuals are permitted to use their own masks, but if they do not have any, the Law School will provide them at no cost to employees and students. Face coverings will be available at the security desks at 250 Joralemon Street, and 205 State Street. Acceptable face coverings include surgical masks and face shields with masks. Anything made of cloth such as a homemade mask, scarf, or bandana is not acceptable. Masks must cover the nose and mouth.

Masks must be cleaned or replaced daily. Please see the CDC guidance on use and cleaning referenced at the end of this Plan. Masks are not to be shared.

Please see the COVID instructional video on the Law School’s COVID page for guidance on proper mask wearing.

B. HYGIENE, CLEANING, AND DISINFECTION

Hand Hygiene

Employees, students, and visitors must wash or sanitize their hands upon entering the premises, or if they have touched surfaces throughout the day.

Hand soap will be provided in each restroom with running hot water, disposable towels, and a lined garbage can. Only hand soap is effective for soiled hands.

Hand sanitizers will be provided in each open, common area where handwashing with soap may not be available, including entrances, exits, and reception desks. Hand sanitizer must be at least 60% alcohol to be effective in killing the virus.

Handwashing signage will be posted in all restrooms and areas with sinks.

Receptacles marked for the disposal of soiled items must be placed throughout the building.

Gloves

Disposable gloves will be available when needed at the security desk at 250 Joralemon Street, 205 State Street, and the 20th Floor reception desk at 111 Livingston Street.
Respiratory Etiquette

Please refer to the COVID instructional video on the Law School’s COVID page for proper ways to cover coughs and sneezes. Tissues will be made available throughout the Law School’s premises to aid in the practice of respiratory etiquette.

Surface Cleaning

Wipes and other disinfection supplies will be provided in the building to encourage everyone to disinfect frequently touched surfaces, their materials, tools, workstations, computer stations, printers, keyboards, keypads, telephones, handrails, and doorknobs. These supplies are to supplement, not substitute for, the ongoing rigorous cleaning provided by the facilities and cleaning staff.

Food Consumption

Food sharing will be prohibited, and food and meals are not to be kept in a refrigerator unless in sealed containers. Meals should be brought from home to minimize contamination issues. All food must be eaten outside, at a secluded workstation or office, or while maintaining proper social distance in designated areas. Individuals who need to eat or drink during class for medical reasons may excuse themselves and do so in a space sufficiently remote from others.

III. PHYSICAL DISTANCING

Responsible Persons and Main Contacts: Mark Hampton, Executive VP & Chief Business Officer; Stephanie Vullo, General Counsel and Chief Compliance Officer

A. GENERAL RULES; WORKFORCE; CLASSES

Given the rise of COVID-19 Delta Variant infections, and the lack of knowledge about who is and isn’t vaccinated, individuals should continue to practice social distancing, unless it is known that all the individuals in the immediate surroundings are vaccinated. The CDC continues to recommend a social distance of at least six (6) feet apart, regardless of the setting, when outside the home, and when inside the home with a sick individual.

Capacity limits in certain areas will be determined on a case-by-case basis depending on the nature of the gathering, the location of the gathering, and vaccination status. Gatherings will be held in well-ventilated areas.

The Law School will have a hybrid workforce with employees dividing their time between remote and in-person working. The number of days an employee works remotely depends on the needs of the department as determined by the department head. The opportunity to work remotely is not available to essential employees, such as those who work in facilities. The transition to a hybrid workforce will be done in waves, depending
on the functions and needs of the department. Hours and shifts will be staggered where appropriate.

For Fall 2021, class instruction to be delivered in person at full capacity until further notice. All students are required to wear masks and the unvaccinated will have designated seating. Separate ingress and egress will be marked for efficient classroom entry and exit, where possible. Students must use hand sanitizer upon entering and exiting the classrooms. Classrooms will be cleaned and disinfected between uses.

B. COMMON SPACES

To reduce bilateral foot traffic, hallways and stairwells will remain one-directional where possible or separated by tape or arrows to keep pedestrians apart when passing each other, and to maintain six feet of distance when walking behind each other. A separate ingress and egress will be designated for individuals entering and leaving the premises.

Distance markers will remain until further notice to denote spaces of six feet in commonly used areas or where people congregate, such as reception areas, cafeterias, waiting areas, and copy rooms. Chairs and tables will either be removed or blocked off to maintain six feet of distance when in use.

C. WORKSTATIONS

Employee seating areas, workstations, and desks must be at least six feet apart in all directions. If employees share workstations, those workstations must be cleaned and disinfected between uses. When distancing is not possible, barriers will be erected in accordance with OSHA guidelines. Barrier options include plexiglass or similar materials, cubicle walls or other impermeable dividers.

All non-essential items must be stored in cabinets or drawers, and not on desks, to limit possible viral transmission. Employees should not share any office or personal items.

D. PERSONAL OFFICES

Masks should be worn when interacting with someone in a personal office unless all individuals in the office are vaccinated. Hands should be washed before entering and after exiting offices, and surfaces should be cleaned and disinfected on a regular basis.

E. EVENTS AND MEETINGS

For Fall 2021, events should be virtual. Permission for in-person events should be made to the Director of Events, Michael Licari, at michael.licari@brooklaw.edu. Other gatherings (such as student organization meetings) should be conducted remotely when feasible. For any in-person meetings, all attendees must follow mask requirements, and attendees who are not fully vaccinated will need to physically distance.
A list of attendees for each event or meeting must be submitted to covidcoordinator@brooklaw.edu for contact tracing purposes. Individuals who are not members of the BLS community (e.g., invited speakers) may come to campus (for events or otherwise) only with prior approval and must be fully vaccinated. Contact covidcoordinator@brooklaw.edu with requests to bring in outside visitors. While mask requirements are in place, food and drink can be served or consumed at BLS events only if physical distancing is possible. Seating arrangements, signs, roped area, and other methods or items will be used to create the necessary distance between in-person participants as required by the CDC Guidance in effect at the time. ³

F. TRAVEL

CDC recommends avoiding non-essential travel to areas deemed to have high rates of Covid infections. Since New York State has lifted all travel restrictions, CDC guidance should be followed. https://wwwnc.cdc.gov/travel/notices/covid-3/covid-19. If travel is essential, the CDC recommends being tested before traveling back to the United States self-quarantining for seven days after travel, and being tested 3-5 days after travel. https://www.cdc.gov/coronavirus/2019-ncov/travelers/infographic/infographic-international-quick-reference.html.

G. DELIVERIES

For those with secured offices, food deliveries will be left at the security desks for pick up. All major deliveries will be at the loading dock, limiting contact and exposure to the greatest extent possible, with the use of protective equipment.

H. LIBRARY

The library will be open to the public in Fall 2021 to individuals who have submitted proof of vaccination or if exempt from the vaccination, uploaded a negative PCR test within seven (7) days of entering the premises. Masks must be worn while in the library.

I. LAW SCHOOL RESIDENCES

The Law School’s apartment-style residences are located at 205 State Street (known as Feil Hall), and 148-150 Clinton Street. These residences are subject to all the rules, requirements, and protocols regarding engineering and environmental controls, safety practices (including frequent cleaning and sanitizing), and physical distancing stated herein, where applicable. Roommates are considered members of the same household.

³ Rooms for approved in-person events and meetings must be booked through the room reservation system on BLSConnect. The correct space for the event will be determined based on the ability to maintain physical distancing and other factors, depending on the event.
and are not mandated to maintain physical distancing or wear face coverings unless the individuals so choose.

For 2021-22, all residents must be vaccinated unless they have obtained a religious or medical exemption. Any unvaccinated person (an approved guest or those who have a religious or medical exemption or who are not yet fully vaccinated) must always wear masks in shared spaces and practice social distancing until further federal, state, or local guidance is released.

**Common Areas** – Masks must be worn outside of the apartments in the common areas, elevators, lobbies, laundry room, and when visiting other residents, until further notice. Social distancing of at least six feet should be maintained.

**Apartments** – Residents are responsible for cleaning and sanitizing their apartments according to the CDC and Department of Health Guidelines listed at the end of this Plan.

**Moving In and Out** – The moving in and moving out process will be staggered to reduce crowd density. Online check-in will be made available to minimize the involvement of multiple parties. Only two family members will be allowed to assist a resident moving in and out. The family members must wear face coverings and gloves. Residents should refrain from bringing unnecessary and big items to make cleaning and sanitizing the apartments easier and efficient. Additional moving in details will be released as soon as possible.

**Additional protocols specific to Feil Hall are as follows:**

**Mail Area** – No more than five (5) residents will be permitted in the mail area at any given time. Residents must wear face masks and maintain a distance no than less than six feet away from each other while in this area.

**Laundry Room** – The Laundry Room will remain open for twenty-four (24) hours. Only ten (10) residents at a time are permitted in the laundry room. Residents must wear masks and practice social distancing while in the Laundry Room.

**Package Deliveries** – Residents will use Building Link to sign for packages remotely before picking them up.

**Geraldo’s** – Residents must wear masks and practice social distancing while in Geraldo’s.

**Visitor Policy for Vaccinated Guests** - Fully vaccinated guests do not need prior approval to visit provided the guests provide the front desk security officer with a photo ID and a copy of the vaccination card or if a NY resident, a photo ID and their [Excelsior Pass](#). Visitors must also complete the Covid health screening.

---

4 The Laundry Room is monitored by close-circuit camera.
Visitor Unvaccinated Guests – Unvaccinated guests require prior approval and must provide proof of a negative PCR Covid test taken within **72 hours** of the visit. Please email guest requests and the results of the guest’s negative PCR Covid test to *Fortune.Attardo@brooklaw.edu* at least one (1) business day in advance. Guest requests submitted during the weekend will not be approved.

All guests must complete a health screening upon arrival according to the procedures set forth in this Plan. The guests must always remain with the resident, and the resident must ensure that the guest complies with the social distancing and safety protocols set forth in this Plan.

Vendors – All Feil Hall vendors will be subject to health screening and must provide proof of vaccination or a negative PCR Covid test result prior to accessing the premises.

Quarantine – Please see the section on quarantining below. Quarantine apartments at Feil Hall are limited. Students must make alternative plans for 14-day self-quarantine if quarantine quarters at Feil are unavailable.

Non-Compliance – Residents have a duty to other residents in the building to ensure that they all live in a safe environment. Therefore, failure to comply with this Plan and the additional rules for Feil Hall will result in the revocation of the student’s housing license.

**IV. HEALTH PROTOCOLS**

*Responsible Persons and Main Contacts: Mark Hampton, Executive VP & Chief Business Officer; Stephanie Vullo, General Counsel and Chief Compliance Officer*

Anyone who is ill must **STAY HOME.** If one does not feel ill and comes to work or attend classes, when it is permitted, the following protocol will apply.

**A. AFFIRMATION OF HEALTH STATUS**

Anyone entering the premises is thereby affirming that:

1. To your knowledge, you have not been in close contact in the past 14 days with anyone who has tested positive for COVID-19 or had symptoms of COVID-19;
2. you have not tested positive for COVID-19 in the past 14 days;
3. you have not experienced any symptoms of COVID-19 in the past 14 days.

Symptoms include, but are not limited to:

- fever over 100 degrees
- shortness of breath or difficulty breathing
- chills and/or muscle ache
- dry cough
- sore throat
- loss of taste or smell
- confusion
- bluish face or lips

Employees and students who are suspected of having a fever will have their temperature taken. They may also request to have their temperature taken at the security desk. Employees and students with a temperature reading of 100 degrees or more will be sent home.

We are prohibited from collecting and maintaining records of anyone’s temperature readings. We can only record that a temperature was taken.

Information on testing resources will be provided to employees via email and in writing for those unable to quickly access an electronic device. Testing information is also available at the end of this plan.

**B. MANDATORY VACCINATIONS AND TESTING**

All students, employees, and non-student residents of Feil Hall and the Clinton Street properties must be fully vaccinated and upload proof in the vaccine portal by August 1, 2021 at: COVID-19 Proof of Vaccination Form. Anyone with a religious or medical exemption must upload a negative PCR Covid test result every Thursday until fully vaccinated or have their identification card deactivated and access denied to 250 Joralemon. The portal to upload test results is located at: https://blsconnect.brooklaw.edu/administrative/policies/Pages/Covid-19-Test-Results-Form.aspx.

**Positive Results**

Anyone who has a positive test result will not be permitted on the Law School’s premises and will be subject to the protocols below in Section C.

**B. EMPLOYEES AND STUDENTS WITH COVID SYMPTOMS OR COVID-19**

Employees and students: (1) who have answered “yes” to any of the COVID-19 questions; (2) who begin to experience any of the COVID-19 symptoms – vaccinated or not; or (4) who have been diagnosed with COVID, MUST immediately contact the security desk and Louise Cohen at (718) 780-0377, (347) 821-8904, or covidcoordinator@brooklaw.edu, and report immediately to a health care provider for testing, an assessment, and possible treatment. Ms. Cohen will report all positive COVID-19 cases to the New York City and New York State Departments of Health.

The affected individual will be immediately isolated from others if they are on the premises, and arrangements will be made to transport the individual to their home or medical provider safely.
If the affected individual was on the premises when experiencing COVID-19 symptoms, all areas with which the individual came into contact will undergo immediate disinfection, and the individuals in those areas at the same time(s) may also have to be quarantined.

C. QUARANTINE

Unvaccinated

An unvaccinated individual (someone who has a religious or medical exemption or who is not yet fully vaccinated) must quarantine for fourteen days if the individual: (1) has been in close contact (i.e., within six feet for 15 minutes or more during a 24-hour period) with someone who has COVID-19; (2) has COVID-19 symptoms and has not obtained a negative test result; or (3) tests positive for COVID-19, whether symptomatic or not. Watch for fever over 100.4 degrees, shortness of breath, and cough, and stay away from those you live with, especially ones who are a high risk of becoming very ill from COVID-19 due to a pre-existing condition.

Vaccinated

A fully vaccinated individual does not have to quarantine upon exposure to someone with COVID-19, but should be tested within three to five days after exposure and wear masks. If the test is positive, the vaccinated individual, regardless of whether the individual is symptomatic or asymptomatic, must quarantine for fourteen days.

Students in residential housing who must quarantine can do so at their permanent homes, provided they can safely return to their homes and can isolate from other individuals; in their Law School residential apartments; or if they are unable to quarantine in their apartment because of a shared bathroom and kitchen, which could facilitate the spread of the virus, may quarantine in one of the apartments set aside by the Law School. If no such apartments remain available, the New York City Department of Health has agreed to place quarantined individuals in hotel rooms at the City’s expense. Students who need to quarantine should contact Louise Cohen at (718) 780-0377, (347) 821-8904, or covidcoordinator@brooklaw.edu, and Fortune Attardo, the Director of Housing, at fortune.attardo@brooklaw.edu.

Protocols have been established to assist the quarantined students with food deliveries, mail, laundry, and cleaning supplies, as needed.

Employees and students who have quarantined, or who have been absent due to COVID-19 concerns, must provide medical certification of their ability to return to work or to the

---

5 Please call the New York City Department of Health (844) 692-4692 to arrange for a hotel room free of charge.
classroom if they plan to be on campus. Such certifications must be submitted to Louise Cohen at covidcoordinator@brooklaw.edu.

D. TRACING AND TRACKING

To help contain the spread of COVID-19, Louise Cohen (primary contact) and Jungsuh Kim (back-up) have been trained and are responsible for:

1. informing the New York City Department of Health Tracing and Tracking Unit and the New York State Contact Tracing Program when someone at the Law School tests positive for COVID-19;

2. providing the contact information of all individuals who entered the site dating back forty-eight (48) hours before the employee, student, or visitor first experienced COVID-19 systems or tested positive, whichever is earlier; and

3. (a) informing Mark Hampton, the Executive Vice President for Administration & Finance, regarding where the affected individual has been throughout the premises at 250 Joralemon Street and 111 Livingston Street; and

   (b) informing Fortune Attardo, the Director of Housing, if the affected individual lives in or has had contact with Feil Hall (205 State Street) or 148-150 Clinton Street.

The New York City and New York State Departments of Health tracers and trackers identify, trace, and notify all individuals who may have had contact with an employee or student diagnosed with COVID-19.

Individuals who are alerted by the Department of Health are required to self-report to the Law School at the time of notification and are prohibited from returning to the Law School until they have self-quarantined.

V. SHUTDOWN PROCEDURES

Responsible Persons and Main Contacts: Michael Cahill, President and Dean; Christina Mulligan, Vice Dean; Mark Hampton, Executive VP & Chief Business Officer

All non-essential in-person work and academic activity will cease at 250 Joralemon Street and all essential operations and academic instruction will be conducted remotely, when:

1. Based on the number of COVID-19 cases, or using other health-related criteria, the New York City or New York State Department of Health orders the cessation of all in-

---

6 Confidentiality will be maintained as required by federal, state, and city laws and regulations. All medical information will be maintained in a secure manner separate from student records and personnel files and shared only with the public health agencies as required by law.
person activities at Brooklyn Law School to contain the transmission of COVID-19 among students and employees; or

2. Local, State, or Federal action mandates a reduction in the workforce and a public quarantine.

The cessation of all operations will not apply to essential personnel, 7 who will have a minimal presence at the Law School to sufficiently protect and maintain the physical premises.

The building at 250 Joralemon Street will be disinfected and cleaned before closure and access will be restricted to security and facility personnel.

The student residences at 205 State Street and 148-150 Clinton Street will remain open and students who elect to remain in their apartments will follow quarantine procedures and all other relevant measures in this Plan.

Notification of any shutdown or other modification of operations will be transmitted to the Law School community by the President and Dean of the Law School, Michael Cahill, who will work with External Affairs and any other relevant members of the administration to swiftly communicate notice.

VII. MANDATORY COMPLIANCE

Responsible Persons and Main Contacts: Mark Hampton, Executive VP & Chief Business Officer; Stephanie Vullo, General Counsel and Chief Compliance Officer

Employees and students must comply with this State-mandated Plan and the Federal and State protocols. Failure to observe this Plan will be investigated and disciplinary action may be pursued if warranted. The failure of residential students to comply with the Law School’s COVID-19 protocol may result in the cancellation of their housing licenses.

Failure to comply with this State-mandated Plan may also expose the Law School to fines of up to $10,000 for failing to follow physical distancing protocols after State inspection.

Any complaints regarding non-compliance with the Reopening Plan should be directed to the Responsible Persons listed for each section or any member of the Core COVID-19 Team.

7 “Essential personnel” includes security, facility operations, maintenance, and information technology.
VIII. EDUCATION AND COMMUNICATIONS

Responsible Persons and Main Contacts: Mark Hampton, Executive VP & Chief Business Officer; Stephanie Vullo, General Counsel and Chief Compliance Officer; Clorinda Valenti, Executive Director of Communications

The Brooklyn Law School COVID-19 page on the BLS website will provide updated COVID-19 information at www.brooklaw.edu and host the Covid Training Video.

Periodic email reminders on safe practices will continue to be communicated to the BLS Community along with a list of resources.

Signage on prevention, safe practices, and other guidance will be posted through the premises owned and operated by Brooklyn Law School.
